# Why this project

Benefits by this app

Social work is a good thinking. For commercial we can use it for business without lose main behavior of social work. We design this app for social work as a commercial view.

## Marketing

Any company can ad by this app as a social work.

## Helping hand

One people can help more people by this app.

## Money saving

It's a huge idea that can save money for any company.

# SWOT Analysis

SWOT analysis of our team.

## Strength

We are so confident about this project that's why we can build it and we will.

## Weakness

We are not thinking about it because if we think about this it will come to us.

## Opportunity

By this project we can make our confidence and experience more effective.

## Threat

Laziness and careless is the big threat. So we all mind it.
